## SECURITY CAMERA REGISTRATION & INSTALLATION AGREEMENT FORM

Effective October 1, 2020, all shareholders will be permitted to install approved battery operated doorbell cameras for the purpose of security at areas designated by Deepdale Gardens Corporations. Doorbell cameras must be no larger than 6"x3"x1.5" inches and they must be installed in the designated spot indicated by Deepdale Gardens. Some popular brands that fit the developments requirements are the Ring video doorbell, Nest video doorbell and Arlo video doorbell. Hard wired doorbell security cameras are not permitted.

Please contact the Maintenance Office at 718-631-8550 prior to the installation of the camera, so that the location can be approved. This form must be returned to the Management Office, so that the camera can be registered. Keeping track of security cameras in the community allows us to quickly determine if a camera is nearby a crime scene which can be helpful in stopping crime and apprehending criminals. Security Cameras not registered with the management office can be subject to a house rule fine. If management is notified of a crime at your location or in your area access to your camera can be requested.
